If we had a public park our people wouldn't have to go to the cemeteries for recreation.

It is remarkable that some paragrapher has not called the June bride a "June-Sweetener."

The *News and Courier* says "hosiery is going up." What? Has the half-hose fad been abandoned thus early?

The fashion of thanking Judges for being "upright and impartial"—in other words, for doing their duty—is becoming awfully common.

The white people of Eastern North Carolina are opposed to "compulsory education," as it is termed. They are paying too much for negro education now.

Isn't it about time now to throw the first shovelful of dirt for another railroad to Southport? Seems that one of those periodical attacks is about due.

We are glad to see that the Bank of England has reduced its rate of discount from 3½ to 3 per cent. We can now get all the money we want, giving roller stocks and other undigested securities as collateral.

An exchange ask: "Is there a meaner man living than the one who buys whiskey with the money earned by his wife?" Oh! yes. It's the fellow who does all that and then goes home and assaults his wife with a beer bottle.

"The fear of another anthracite coal strike has happily passed away," says the Philadelphia *Press*. Thanks, awfully. But that monthly increase of ten cents per ton comes around with the regularity and pertinacity of the bill collector.

We are told that seven women were carried on the pay rolls of the Washington post-office as "cleaners." They never worked; there was no work for them to do. There is work there for seven hundred "cleaners" now. But they ought to be men who have worked in a fish-scrap fertilizer factory.

THE SUPERIOR COURT.

One Week Term for Trial of Both Civil and Criminal Matters of New Hanover Co.

WILL CONVENE TO-MORROW.

Docket Contains Over Fifty Cases, Including Indictments Against Thomas Boys for Murder, Which Was Continued from May.

New Hanover Superior Court for the trial of both civil and criminal cases will convene to-morrow morning at 10 o'clock and remain in session during the remainder of the week. Judge Robert B. Peebles, who will preside, is expected to arrive to-day from Kinston where he has been holding Lenoir court. Solicitor Duffy arrived yesterday and has everything in readiness for the work of the term.

There are fifty criminal cases on the docket with the probability that a dozen more will be added during the week, so that it is reasonably certain that no civil matters of importance will be taken up, as jail cases are always given precedence. The most important of the criminal cases is that in which Robert and Walter Thomas, colored, are charged with the murder of Dan Shines, also colored, in Cato Boney's "ranch" in "Brooklyn" last February. True bills have already been found and a special venire of 150 was summoned last term for their trial but the hearing had to be continued on account of the illness of Judge Peebles. There are also a number of other more or less important cases that will go to make up a very interesting term.

The jurors summoned for the week are as follows: H. A. DeCover, R. H. Bowden, Montie Hewett, I. H. Well, J. M. Chadwick, A. H. Benson, H. F. Olten, Richard S. Murray, J. T. Brown, Sr., E. F. Johnson, J. A. Springer, B. B. Jackson, Geo. W. Huggins, Wm. P. Toon, W. B. Jones, Jno. A. Yopp, J. M. Jarrett, Thos. B. Oldham, A. F. Davis, Chas. Craig, Henry G. Sanders, Warren S. Johnson, Luther T. Norris, Jno. T. Runge, G. F. Seitter, M. H. Kelly, W. H. Bonham, Josiah Cumber, Geo. M. Grant, William F. LeGwin, N. R. Jones, S. L. Smith, H. J. Bierman, Mark A. Jones, E. G. Hall, Giles W. Westbrook.

POPULAR YOUNG RAILROAD MAN.

Travelling Auditor James Sinclair Receives Important Promotion to 2nd Division.

Mr. James Sinclair, one of the popular and efficient travelling auditors of the Atlantic Coast Line with headquarters in this city, has received a deserved recognition of his faithful services and natural business ability in promotion last week to the office of timber purchasing agent and tie inspector of the entire second division of the magnificent system of railways which he has served so well in the past. The promotion becomes effective July 1st, and Mr. Sinclair will report to General Purchasing Agent F. H. Fechtig, of this city.

While Mr. Sinclair's friends will rejoice with him in his advancement in the railroad world, they will nevertheless regret to know that his duties will necessitate the removal of himself and Mrs. Sinclair to Waycross, Ga., where will be Mr. Sinclair's headquarters. However, they will not remove permanently to Waycross before September 1st.

TRAMPS SET FIRE TO CAR.

Shifting Engine Hostled It to the City and Department Was Called Out.

Tramps, who had crawled into a refrigerator car of the C. F. T. Co. on the A. C. L. tracks just outside the city limits, set fire to their temporary abode last night about 11 o'clock and the presence of mind of an engineer on a shifting engine, which happened to be passing, probably saved from destruction a string of other cars which were attached to it and banked up all around it. The shifting engine got the car out and brought it ablaze down to Ninth and Hanover streets and an alarm was sent to the department from box 19. Upon the arrival of the firemen and apparatus the flames were extinguished with a loss of not more than $250. One end and the top of the car was burned off.

Rocky Mount Band Chosen.

Capt. J. Van B. Metts, of Wilmington, adjutant of the Second Regiment North Carolina National Guard, has named the Rocky Mount Cornet Band as the official band of the regiment and the appointment has been accepted. Until a few months ago, when it disbanded, the Wilmington Second Regiment Band was the official band of the regiment.

BANKERS THIS WEEK.

State Association Will Meet at Wrightsville Beach Tuesday Evening.

ARRANGEMENTS COMPLETED.

Reception Will Be Opening Feature, With Excursion and Night Session Wednesday—Addresses on Thursday and Election of Officers.

"Bankers from far and near will congregate at Wrightsville Beach this week," said Mr. Andrew Moreland, chairman of the local committee of entertainment, in speaking yesterday of the State Bankers' convention which will be held this week. "Financiers known by reputation throughout the length and breadth of the land will attend the convention which, as you know, opens Tuesday evening at the Seashore Hotel with an informal reception. The individual members of the Chamber of Commerce are expected to attend and to meet the visiting bankers and join in extending a welcome to them. The attendance will undoubtedly exceed that of any previous convention. Bankers from New York, Philadelphia, Richmond, etc., have already secured rooms. It is safe to say that no more influential or important body has ever gathered in Wilmington or hereabouts."

The local committee has every arrangement completed according to the very complete programme printed in these columns a short time ago, and indications point, as Mr. Moreland says, to a very large attendance. The address of welcome Tuesday evening will be by Col. A. M. Waddell, and the response in behalf of the visitors will be by Col. F. H. Fries, president of the Wachovia Loan and Trust Co., of Winston.

Wednesday morning and afternoon will be devoted by the bankers and their lady friends to recreation and pleasure. Special chartered cars will leave the Seashore Hotel at 9:30 A. M., connecting with the steamer at Market street dock. The steamer "Wilmington" on that day, in order to connect with the morning trains, will not leave until 10:30 A. M., and delegates arriving on those trains will join other members of the Association aboard the boat. The trip will be to sea about 12 miles, touching at Fort Fisher and Fort Caswell, with luncheon aboard. The steamer will return to the city at 5 P. M. and cars will be in waiting to transport them back to the beach, reaching the Seashore Hotel at 7 P. M. The Association will hold an opening session at night, which will principally be devoted to routine business, including the President's annual address, report of secretary, report of and appointment of committees.

Thursday will be the busiest day of the convention. The morning session will convene at 10 A. M. and addresses will be made by distinguished men upon important subjects as follows:

"Organization Among Banks and the Benefits Incident Thereto," by Mr. Caldwell Hardy, president of the Norfolk National Bank, of Norfolk, Va., and also president of the American Bankers' Association.

"Competition Among Banks," by Messrs. Walter L. Parson, cashier of the Bank of Pee Dee, Rockingham, N. C., and Mr. J. Elwood Cox, president of the Commercial National Bank, of High Point.

"Exchange and Collections," by Messrs. T. W. Dewey, cashier of the Farmers' & Merchants' Bank, of Newbern, N. C., and Mr. L. L. Jenkins, president of the First National Bank, of Gastonia.

The morning session will conclude with an address, "A Southern Depository," by Mr. S. T. Peace, secretary and treasurer of the Oxford Savings Bank, of Oxford.

During the afternoon Hon. Franklin McNeill, of Raleigh, chairman of the North Carolina Corporation Commission, will deliver an address upon "The Work of the North Carolina Corporation Commission."

The concluding address for the meeting will be "The Bank and its Depositors; Their Duty to Each Other," by Mr. Lee H. Battle, cashier of the City National Bank, of Greensboro, N. C., followed by the election and installation of officers and roll call of members, with three minute speeches from each as to business in each locality.

The membership of the Association is about 150 and its officers are as follows: President, Mr. Geo. W. Montcastle, president of the Bank of Lexington; vice presidents, Col. W. H. S. Burgwyn, of Weldon; Mr. W. L. Parsons, of Rockingham; Mr. Lee H. Battle, of Greensboro; secretary and treasurer, Mr. C. N. Evans, of Charlotte; executive committee, Messrs. H. W. Jackson, Raleigh; Jno. F. Bruton, Wilson; Jas. P. Sawyer, Asheville, and Andrew Moreland, Wilmington.

Clyde to Increase Rates.

It is announced that beginning with the steamer which sails from Wilmington July 4th, the Clyde Line will advance its freight rates between New York and Wilmington from 15 to 20 per cent. The reason given for the advance in rates is the increased cost of operation on the line.

AN EXPERT IN VITICULTURE.

Mr. Husmann, of Department of Agriculture, Thinks Possibility of Grape Culture Great in This Section.

Mr. Geo. C. Husmann, an expert in viticulture of the U. S. Department of Agriculture, arrived in the city yesterday on official business. Viticulture is the science of raising grapes and the manufacture of products therefrom and Mr. Husmann came to Wilmington from Southern Pines, Weldon and other points in the State where experiments by the government have been conducted. He says the Department has been experimenting on North Carolina soil with 280 European varieties and finds that 20 of them can be raised profitably in this section. It was the purpose of his visit to the points named to ascertain if it is worth while for the government to continue its experiments.

Mr. Husmann is an enthusiastic admirer of the famous North Carolina scuppernong and expressed surprise that people do not regard it more seriously as a money crop. He says from Wilmington, extending back into the State and more especially in the sandy region, there are 500,000 acres of land that could be made to yield millions to the people if they would only engage in scuppernong culture.

Heretofore people in the immediate section of Wilmington have had the excuse that there was no market for the scuppernong in large quantities, but that excuse will be no longer valid. Messrs. Sol Bear & Co., of this city, with whom Mr. Husmann conferred yesterday, informs the Star that beginning this season they will buy all the scuppernong and other grapes that are brought to them, paying good prices for the same. Messrs. Bear & Co. have established a winery in connection with their business on Market street, and propose to enlarge it from time to time as they can get the grapes for its consumption. The industry promises to be an important one for Wilmington and the surrounding territory.

DEATH OF MRS. VIRGINIA HENNING.

Wife of Former Wilmington Citizen Passed Away in Richmond—The Funeral.

Mr. James C. Munds received a telegram yesterday announcing the death in Richmond the same day at 7:40 A. M. of Mrs. Virginia H. Henning, wife of the late Robert Henning, formerly of this city, who also died in Richmond, about three years ago. Mrs. Henning died of paralysis and while the death was not wholly unexpected, it was a sad blow to the family and friends. Mrs. Henning is survived by a son and two daughters—Mrs. Jno. B. Munson, of New York; Mrs. Edward Palmer, of Richmond, and Mr. Robert A. Henning, of Baltimore.

The remains will reach Wilmington on the 10:10 A. M., train this morning and after funeral services at the grave by Rt. Rev. Bishop A. A. Watson, the remains will be laid to rest beside her late husband in Oakdale cemetery.

CASINO ALL THIS WEEK.

Rumley Sisters Comedy Co. and Select Vaudeville Artists—Features.

This week at The Casino, Wrightsville Beach, promises to be the most brilliant of the season. Besides the Rumley Sisters Comedy Co., in vaudeville and comedy, there are a number of other specialty artists including Fred Miller, comedian and buck and wing dancer, and Jeure and Ruand, in a musical act. The Comedy Company carries an illustrated song outfit and all its own special scenery and other paraphernalia. Prominent in the cast is Harry Leon, comedian and banjoist, of a national reputation. There will be a change of bill nightly.

Popular Official On Vacation.

Mr. A. B. Corinth, the popular and efficient Master Car Builder of the Atlantic Coast Line in this city, left last night for a two weeks vacation North. Mr. Corinth will first go to Baltimore to testify in an important case in the Federal Court there relative to a patent and will continue his journey to Saratoga where he will attend the annual conventions of the Master Mechanics and Master Car Builders of the United States.

Superintendent of Gas Company.

Mr. F. C. Slade, formerly superintendent of the gas plant of the C. R., L. & P. Co., left yesterday afternoon on the Clyde Liner "Navahoe" for New York and will probably not return to Wilmington. His successor as superintendent of the gas plant has not yet been appointed. Mr. Slade's family left several days ago for their home, near New York.

Car Line Incapacitated.

An Interstate telephone pole fell across the trolley wire at Sixth and Castle streets last night about 9 o'clock, breaking the line down from Fifth and Castle to Sixth and Nun streets, incapacitating the city car system for an hour and badly crippling the service on the suburban line. The damage was repaired as quickly as possible and the cars took their schedule before 11 o'clock.

Mr. McDougall's Condition.

Mr. J. H. McDougall, who was so severely burned in the explosion at the Wilmington Iron Works, was much better last night at the hospital, though he is not yet out of danger. He is perfectly conscious and looks upon his condition philosophically. It will be weeks before he is out again.

JAMES M. M'GOWAN.

A Well Known and Highly Respected Citizen of New Hanover Died Yesterday.

FUNERAL THIS AFTERNOON.

Death the Result of Chronic Bronchitis. Deceased a Prominent Secret Order Man and a Justice of the Peace. Passed Away Suddenly.

The community was saddened and shocked yesterday at the announcement that Capt. James M. McGowan, a well known citizen and justice of the peace of the county, had passed away at 4:30 A. M. at his home in this city, No. 713 Orange street. Capt. McGowan had been confined to his home only two days, but had been suffering much the past several weeks from asthma, following chronic bronchitis, for the treatment of which he had been under the care of some of the best physicians in the city. About half an hour before his death yesterday morning he arose in bed and asked for a drink of water. Before his wife could comply with the request Capt. McGowan sank to his pillow and was dead in a few minutes. His son, Mr. W. A. McGowan, had been with him the night previous until 10 o'clock and believed his father was much improved. The attack which carried him away was sudden and the family and friends were totally unprepared for the shock.

Capt. McGowan was a genial, whole-souled, generous man and many an act of kindness will live after him. He was devoted to his family and friends, and in the administration of his duties as an active magistrate he always tempered justice with mercy. To the newspaper men, who had occasion to visit his office in the old Court House daily, he was uniformly courteous and was always their staunch friend. Some months before his death, knowing that he was rapidly approaching the three score and ten years allotted to man, he dictated for his newspaper friends the gist of the following information as to his life:

Capt. James Montgomery McGowan, son of the late Patrick McGowan and Elizabeth Rideout Andrews McGowan, was born March 7th, 1838, in the city of Raleigh, N. C.; was educated at Gray's Military Academy, Lovejoy's Military Academy and Bobbitt's preparatory school, all of Raleigh; afterwards attended Crawley's Military Castle, of Lynchburg, Va., and returned to Lovejoy's; was in the United States postal service at Raleigh, Wilson, Portsmouth, Norfolk and Petersburg. Later, went West and engaged in business in Memphis, New Orleans and St. Louis. Entered the Confederate Army April 4th 1861 at Memphis, Tenn., by organizing a company which did service in the 15th, 2nd and 21st. regiments, Tennessee Volunteers, which were mustered into the 3rd and 5th Confederate Regulars, in which deceased was commissioned a second lieutenant; afterwards promoted by Gen. Hardee to captain in 1863. Having been shot through the thigh, was sent to Fayetteville, N. C., from Morton, Miss., and acted there as assistant quartermaster, assistant commissary sergeant and quartermaster of the Fourth Congressional District of North Carolina. Upon evacuation of Fayetteville, went to Richmond and fought from Petersburg to Appomattox. He was paroled by Drewry Lacy April 9th 1869, after the surrender by Lee to Grant.

Capt. McGowan married Miss Sarah J. Brandion, of Smithville (now Southport), July 3rd 1865, and she survives him with an adopted son, Mr. W. A. McGowan; one brother, Mr. P. W. McGowan, of Raleigh, and three sisters, Mrs. Florence Bragassa, of Raleigh; Mrs. Annie M. Casey, of Portsmouth and Mrs. Kate Neil, of Graham.

Capt. McGowan was town commissioner of Smithville for several years and took an active interest in governmental affairs there. He removed to Wilmington in 1866 and had been continuously engaged here since that time. He was a health inspector of the city for several terms, but in late years had devoted himself exclusively to his duties as a magistrate, enjoying a large clientelage.

Capt. McGowan perhaps belonged to more secret orders—and good ones—than any man in the United States and the spirit of fellowship appeared to have dominated his entire life. He had been a member of Wilmington Lodge, No. 319, A. F. & M. since 1865 and connected himself with the Odd Fellows through Manteo Lodge No. 8, I. O. O. F., of Raleigh, when a young man, later transferring his membership to Wilmington Lodge No. 139, of this city, having served the latter for many years as secretary and having been instrumental in the organization of Orion No. 67, and Hanover Lodge No. 145. He was a Past Grand, Past Grand Prelate and Past Grand Marshal of Campbell Encampment No. 1, I. O. O. F., this city, and was a representative to the Grand Encampment in 1876 and a representative to the Grand Lodge I. O. O. F. in 1875, and many other years. He had been a member of Stonewall Lodge No. 1, K. of P. since 1878; was a Past Chancellor; Past Representative; belonged to the Endowment Rank of the order, and was a member of Suez Temple No. 73, Dramatic Order, Knights of Khorassan, the social branch of the K. of P. fraternity. He was a Past Dictator of Carolina Lodge No. 434, Knights of Honor, and a Past Grand Representative of the same order; also Past Protector of the Knights and Ladies of Honor. He was also a member of Kyota Tribe No. 5 Improved Order of Red Men, and was Chief of Records of the same and a member of the Great Council of the State. Lately he joined Jeff Davis Council No. 63, Junior Order of United American Mechanics and was a valued member of the same.

He was especially highly esteemed by the Red Men of the State and was devoted to that order perhaps more than any other of the many to which he belonged. Mr. A. Dughi, a prominent member of the Raleigh tribe, telephoned yesterday that a prominent delegation of Red Men from that city would be here to-day to attend the funeral, which will be held from Fifth Street M. E. church, of which deceased was a member, at 4:30 o'clock this afternoon. The burial will be with Odd Fellow honors in Oakdale cemetery and members of Wilmington Lodge are called to assemble at their hall for the purpose of attending the services in a body. Jeff Davis Council, Jr. O. U. A. M., will also attend the services in a body. Rev. F. M. Shamburger, Capt. McGowan's pastor, was telegraphed yesterday at Rockingham to come to-day for the purpose of conducting the funeral.

Capt. McGowan was also a member of Cape Fear Camp of Veterans and that organization is called to assemble at the W. L. I. armory at 4 o'clock to attend the services.

The following have been selected as pall bearers: Honorary, Dr. J. T. Schonwald, Messrs. Marsden Bellamy, John Haar, John H. Gore, Jr., W. M. Cumming and John D. Bellamy; active, Messrs. A. J. Marshall, James Cowan, Jere Holmes, W. B. Savage, T. W. Wood and Dr. C. T. Harper.

Capt. McGowan carried life insurance to the amount of $8,000 in the various orders to which he belonged. Three thousand of the amount is in the Endowment Rank, K. of P.; $3,000 in the Knights of Honor and $3,000 in another feature of lodge insurance.

DR. RUSSELL BELLAMY.

Through His Instrumentality Manhattan Will Have New Hospital—The Donor.

The New York *Tribune*, of Thursday, contains a column account, including a cut of a new maternity hospital that is being established at Manhattan through the instrumentality of Dr. Russell Bellamy, a native of Wilmington and a son of the esteemed Dr. W. J. H. Bellamy, of this city. The hospital is a gift of a patient of Dr. Russell Bellamy, and one condition of the philanthropy was that the giver's name be not revealed. The *Tribune* says:

"The scope of its work, as planned by the board of governors and Dr. Russell Bellamy, the well known surgeon and physician, who has been the moving spirit in bringing it about, and whose ideas have been adopted, contemplates a training school for nurses, students and physicians who wish to study the peculiar, complicated cases to be found in the tenement house districts. Situated on a plot 100 by 100 feet, at No. 327 to 333 East Sixteenth street near First ave., overlooking the entrance to the new Blackwell's Island Bridge, the building, plain and spotlessly white, will offer a striking contrast to the dingy tenements which will surround it, and this feature of absolute cleanliness will be carried out in all of the construction and furnishing. Dr. Russell Bellamy has been for several years the surgeon of Squadron A and a member of the teaching force of New York University. He is now a member of the faculty of Cornell University.

"For more than a year Dr. Bellamy has given much of his time to the study of hospital construction in this country and Europe, in preparing for this institution. The building will be a four story structure, rectangular, and of simple design. The foundation will be of stone and polished granite."

WILLIAM H. BERNARD.

WILMINGTON, N. C.

SUNDAY MORNING, JUNE 21.

NO MIDSUMMER MADNESS.

If Mr. Bryan thinks the Democratic party is idiotic enough to go before the country again on a platform favoring the free and unlimited coinage of silver at the ratio of 16 to 1, then he must be rapidly drifting into insanity himself.

THE MORNING STAR was a staunch supporter of Mr. Bryan in both his presidential campaigns, because he was the nominee (once without opposition) of the Democratic party, and because this paper has never failed to support a regular nominee of the party it represents.

But we have had enough of a candidate who in two consecutive campaigns has carried the banner of his party to defeat, and who, not satisfied with that, now aspires to the honor of naming the man who must lead the Democratic army in 1904.

Mr. Bryan is a man of unquestioned ability and, notwithstanding his waning influence, he is a factor to be reckoned with in making up the platform and ticket for 1904. But he should be satisfied with a candidate who supported him in 1896 and 1900, and with a platform conservative enough to enlist the co-operation of all true Democrats. Such a candidate is Alton B. Parker, of New York, a Democrat who twice followed Bryan to defeat, and who is known to be a man of judicial and conservative temperament. But even Judge Parker falls short of the standard of the eloquent and loquacious Nebraskan. Arthur P. Gorman is another "regular" Democrat who supported Mr. Bryan in both his disastrous campaigns, and who, as a candidate for President, would be acceptable to every conservative Democrat in the country. But Mr. Bryan, not being a conservative Democrat himself, is opposed to Gorman.

But the Democratic party will not recognize Mr. Bryan as its dictator when the national convention meets in 1904. It will nominate a candidate and adopt a platform fairly representative of living issues.

THE RACE ISSUE IN POLITICS.

New Orleans *Picayune*: The reduction of the representation in Congress of the Southern States, in revenge for their disfranchisement of the ignorant and shiftless negroes, is going to be one of the planks in the National Republican platform in 1904, if the action of the Ohio State Republican Convention yesterday is to be any criterion. The Ohio Republicans yesterday adopted, among other matters, the following:

"Ohio was the first State with soil forever free from the stain of slavery. Pledged by the great creative ordinance of 1787 'to the fundamental principles of civil and religious liberty' and bound thereby to 'forever remain a part of the United States of America,' Ohio was foremost in the war to preserve 'the indestructible union of indestructible States,' and adheres firmly to every amendment which that war wrote into our country's Constitution as binding in honor upon every American citizen.

"Therefore we hold fast to the doctrine of equity everywhere in the exercise of the elective franchise, maintaining that justice requires any State excluding any of its citizens from the ballot to be proportionately reduced in its representation in the Electoral College and the lower House of the National Congress."

This policy is a legacy from President Roosevelt. He it was who revived the dormant and disused issue of race equality. It is being taken up by all the political clergy throughout the Northern States, and they will force it on the politicians and people as they did in the period that began with the war in Kansas in the fifties, and culminated in the war of the sixties of the last century. These malignants and fanatics will, if it is possible, drive the sections to another war over the race issue.

As he got in the chair his brother took a gun and told him if he did not get down he would shoot him, and in an instant fired, the wound proving fatal. The boy who was killed was aged 10. His slayer was 12.

— Asheville *Citizen:* Will Landreth, the fourteen-year old boy who was burned by a live wire on the 9th at Spruce and Woodfin streets, had both arms amputated yesterday afternoon at the Mission Hospital. He was thought to be doing nicely up until Tuesday night, when he became worse. Wednesday morning he was found to have lockjaw. The boy had climbed a cherry tree to get cherries and in a spirit of bravado reached out to catch hold of two electric wires. His playmates warned him not to do this, but he said he was not afraid to take both wires in his hands at once. He did so and instantly hung shrieking from the wires. He fell to the ground with both hands burnt and both thumbs gone. The boy has since died.

Potato Planting.

One of the most helpful ways in making an early potato crop is to prepare the sets for planting some time in advance, cutting them into halves or quarter pieces, so as to get one, two or three eyes on each set, and then exposing them to air long enough to dry the cut surface so that it will not rot when it comes in contact with wet and cold soil. Many acres of early potatoes become failures from nonattention to this simple precaution. After the cut surface has seared over the potato set should be exposed to light so as to make its buds green. When they begin to expand, the set should be planted if the ground is in condition to be worked. The growing germ will dry out the sap in the potato and will also dry the soil around the set and make it warmer.—American Cultivator.

A NEW CURE FOR FLEAS.

A Simple Exterminator on Animals and in the House.

The New Hampshire experiment station proposes a remedy for fleas which will be new to most people. This is creolin, and it has been found the most satisfactory remedy tried at the station.

For fleas on cats or dogs the animal should be thoroughly washed with a mixture of creolin and water. This will destroy the adults as well as the larvæ and thus prevent further breeding. For dogs a 3 per cent solution should be used; for cats a 2 per cent solution, as the fur is more sensitive and the hair finer and will hold the solution longer.

How to Make the Solution.

Commercial creolin may be bought at any drugstore as a blackish brown liquid, costing about 25 cents a pint. When this is mixed with water, it forms a milky white solution. A 3 per cent mixture can be made by adding four teaspoonfuls to a quart of water, or four tablespoonfuls to a gallon of water. A 2 per cent solution may be made by adding two teaspoonfuls to a quart of water or two tablespoonfuls to a gallon. Shake well and the mixture is ready for use.

Creolin is not poisonous, but the solutions need not be used stronger than here recommended. It should never be used pure internally.

This wash will kill all the fleas on the animal. A thorough wash not only destroys the fleas, but other vermin that may be infesting the skin as well. It cleans the fur, making it soft and smooth, and heals up the small irritations in the skin that occur on flea infested animals.

Creolin is also a deodorizer. Dogs and cats returning from filthy localities, carrying in their fur putrid odors, when washed in 1 or 2 per cent creolin are rendered inoffensive. It was found very effective when applied to a dog that had killed a skunk. The odor of creolin is a very clean one and is disagreeable to few people.

In the House.

Unless the fleas are removed from houses the wash must be repeated occasionally, as the intruders will soon find a breeding place again in the hair of our household animals. These pests are most likely to breed under carpets, rugs and mats, also under things piled on the floor, such as books, boxes and papers; consequently rugs and mats are more desirable than carpets because the former can be taken out and thoroughly beaten and shaken to remove eggs and larvæ of the fleas as well as the adult insects.

If floors contain cracks and crevices, such floors should be scrubbed with a 5 per cent solution of creolin.

The bedding of animals should be thoroughly saturated occasionally with a 5 per cent solution of creolin.

SPRING TOMATO CROP.

Profit In Tomatoes Raised Under Glass—Single Stem Training.

The demand for forced tomatoes does not cease in the north upon the appearance of the southern product in the market, and otherwise idle forcing houses may be used for a spring crop.

The expense of curing for tomato plants, while small, is light, as they are then in pots and require little room. After transplanting into the benches the aim should be to get fruit as soon as possible, as the plants are occupying valuable space. If the plants have not been properly checked before transplanting into rich soil, they make a splendid growth, sometimes producing little fruit, but usually the crop is simply delayed. Many growers secure no return for ninety or a hundred days after benching their plants, when half that time is all that is necessary. The expense of heating the house for the extra time is quite an item for the grower's consideration.

Tomatoes may be planted among carnations in the spring and when the Easter rush is over given the entire space with a thorough dressing of fertilizer. Tomatoes for the spring crop are grown after lettuce, radishes and similar crops. As little heat is required, such houses, if of sufficient height to train plants, are well suited to the purpose.

By checking the plants it is possible to secure fruit in fifty days from benching.

Pollen is not discharged during cloudy weather, and advantage must be taken

TOMATO PLANT READY FOR SETTING.

of short periods of sunshine to pollinate by hand. The advantages are a larger number of fruits set and larger, more uniform fruits.

A careful selection of varieties for the midwinter crop is requisite for the greatest success. Those varieties developed under forcing house conditions like Best of All and Lorillard give the best results.

Eclipse gave the largest yields both for the winter and spring crops of 1902. It is not quite so early as Best of All, but it produced the smoothest and most solid fruits.

The yield of Yellow Prince was decidedly inferior to that of the Combination grown under similar conditions.

Plants trained to single stems gave a much greater yield per square foot of bench than those trained to three stems, the yield of the former being one and a fifth pounds against four-fifths of a pound for the latter.

The average yield for the season of 1901-02, including both the winter and spring crop, was from two to nearly two and a half pounds per square foot of bench or from seven to almost nine pounds per stem.—A. C. Beal, Illinois University.

GRASS GROWING.

Experiments In Top Dressing—Effect of Nitrate of Soda.

The Rhode Island experiment station has devoted considerable attention to grass culture, and a recent bulletin gives the results of the fourth year of grass experiments conducted on three plots of the station farm. Among other items it appears that the land was seeded with barley, clover and grass in the spring of 1898. The clover and grass seeding per acre was upon each plot 7.5 pounds common red clover, 15 pounds timothy, 7.5 pounds redtop.

One ton of slaked lime was applied per acre to each of the three plots in 1897, none having been used since.

The plots have been manured alike with potash and phosphoric acid, but regarding nitrogen one plot receives none, another a one-third ration and the third one a full ration.

The yields of field cured hay for the four years upon the plot receiving the full ration of nitrate of soda have been as follows:

	Tons per acre.
1899	5.4045
1900	4.1000
1901	4.4950
1902	4.1000

The value of the crop of barn cured hay, even at the lower prices used in the estimates, exceeded the cost of the manures in each of the four years where a full ration of nitrate of soda was used as follows.

	Per acre.
1899	$19.62
1900	30.40
1901	40.70
1902	32.74
Total	$123.46
Average per year	30.87

The net returns were much greater in each year where a full ration of nitrate of soda was used than where a one-third ration was applied or was altogether omitted.

Based upon the results of all the experiments to date it is believed that the annual application of the following materials per acre would probably have given better net returns than the amounts employed in this experiment—viz: Four hundred pounds acid phosphate, 200 to 250 pounds muriate of potash, 350 pounds nitrate of soda.

It is assumed that the land, if acid (sour), should be limed before seeding to grass.

It is absurd to waste manure in top dressing "run out" land which is not filled with the proper kinds of grass roots. The only rational course in such cases is to plow and reseed heavily.

Not So Badly Said.

Farming is no longer the occupation of the mere toiler. It demands the trained brain as well as the strong body, knowledge as well as physical endurance.

"I shirk systematically," says a woman. "I would rather leave some things undone than others. I would rather feed my mind, which is going to last forever, than be a model housewife."

It seems to be easier for some of us to break our backs undoing than to lift our little finger doing.

A great secret of success today is co-operation. All readers of this paper can co-operate with us.

The paper that makes you think is the one to tie to.

The average man can endure almost any amount of pain if it is inflicted on somebody else.

But he will tell you that beer must be protected from germs, and brewed in absolute cleanliness.

He'll say, too, that age is important, for age brings perfect fermentation. Without it, beer ferments on the stomach, causing biliousness.

THE BEER THAT MADE MILWAUKEE FAMOUS

The First Feed.

We all know that the tiny chicks are well supplied with a nourishing food at the time of excision, as the balance of the yolk of the egg is absorbed into the chick's abdomen just before that period, which is nature's way of providing sustenance until supplies can be found, the absorbed yolk giving strength for the search. Common sense should teach us, says A. F. Hunter, that they ought not to be fed until they have had a chance to digest and assimilate the absorbed egg yolk, and experienced chicken raisers are coming to believe that a very serious mistake is made by feeding before the chicks are forty-eight hours old. It is better that they get to be a little hungry before they are fed than that they be tempted to eat before they are really ready to digest food. If the chicks are "well hatched," or, as Mr. Pollard expresses it, "come out like popping corn," they should be left in the incubator until the morning of the second day and then removed to a well warmed brooder which has chaff or finely chopped clover, etc., scattered over the floor, and a little dry chick size of grit and water given them.

Death to Roup.

The following formula will be found not only complete death to roup or other disease germs, but also to lice, nits, etc. It is a perfect cleanser as well as annihilator: Corrosive sublimate, four ounces; common salt, four ounces. Dissolve in two to four quarts of water. When completely dissolved, dilute to twenty-five gallons. With this carefully spray every crevice, nook and corner of the house. As the solution is highly poisonous, care should be observed in handling it. Increase proportions as required. Apply with a fine spray pump. All movable woodwork should be removed and thoroughly drenched, or, if easily and cheaply replaced, burned. It takes complete and careful work to annihilate disease germs, but this will do it. If the walls of the houses are first sprayed with soapy water made from good brown soap, it will make the effect still more potent.—A. G. Gilbert in Rural New Yorker.

Uniform Eggs For Hatching.

Don't try to hatch eggs from different classes of fowls at the same time. Hens' eggs and ducks' eggs, for instance, do not go well together. Neither do eggs from different classes, such as Leghorns and Plymouth Rocks. As a rule dark shelled eggs go well together no matter what the breeds, and the same is true of white shelled eggs.

Norway makes a flour out of fish and Sweden a flour out of milk. When these get on the market, it will be easy to make a dish of fish gravy.

There are two kinds of bad roads—mud roads and sand roads. The mud road is bad only in wet weather; the sand road is bad all the time.

It is about thirty years since the first silo was built in this country. Thirty years more will see it as common a part of the farm equipment as the barn or the corncrib.

We find it handy to have the covering of the strawberry beds when removed placed near by so that it may be used if necessary to protect the plants in case of a late frost.

Spring winds and spring sunshine are great tonics for all the north country folk who have a four months' winter. Those who live in perpetual summer and sunshine know nothing about it.

We believe that the best way to manage the dairy business on the average farm is to keep enough cows to keep one man busy caring for them; then hire him for that special work.

The poorest grade steers are always found in the dairy sections, the milk business being always at war with the beef interests. This might be remedied to some extent if a better class of sires were used.

A LONG-FELT WANT.

It is Supplied at Last in Wilmington.

Good-natured people are often irritable.

If you know the reason, you would not be surprised.

Ever have itching piles?

Not sick enough to go to bed, not well enough to be content.

The constant itching sensation.

Hard to bear, harder to get relief.

Spoils your temper, nearly drives you crazy.

Isn't relief and cure a long-felt want?

You can have relief and cure if you will follow the advice of a local citizen.

C. S. Hollen, printer on the Morning Messenger, residing at 419 Grace St., says: "I had used several remedies to get relief from itching piles but without any good results. Learning of Doan's Ointment I obtained it at Bellamy

MODERN TENEMENT.

House and Store Building For a Narrow Lot—Cost, $5,000.

(Copyright, 1903, by Dennis & Gastmeyer, architects, 280 Broadway, New York.)

The floor plans and elevation shown represent a model tenement house with proper light and ventilation provided for every room. The first floor contains one large store, well lighted by skylights in the courts and by windows and doors in the front and rear.

There is a cellar under the entire building. The cellar walls are of twenty inch stone and the main walls of the building of twelve inch hard burnt brick.

The front is laid up in rock faced light terra cotta bricks in red mortar,

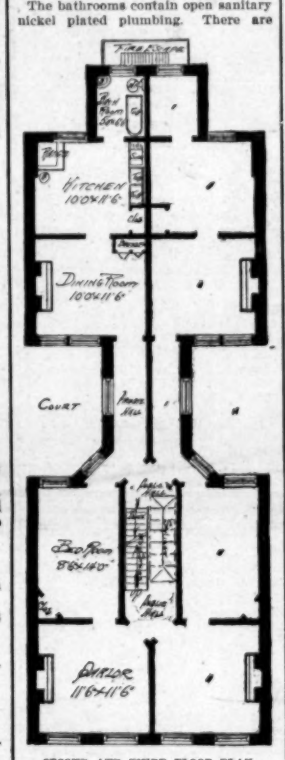
FRONT ELEVATION.

with brownstone sills and lintels. The rear and side lintels and sills are of bluestone.

The timber throughout is spruce. The main doors are quartered oak, with plate glass top panels. The floors are of narrow North Carolina pine, and the cornices, as shown, are of galvanized iron. The side and rear windows are fitted with outside pine blinds and the front windows with inside sliding blinds to match the trim. The main roof is covered with tar and gravel.

The interior walls and ceilings are plastered with patent plaster, hard white finished. The trim and woodwork of the interior are of clear kiln dried cypress, with plain molded heads, finished in natural wood, with one coat of light wood fillers, properly rubbed smooth, and two coats of brilliant flowing varnish.

The bathrooms contain open sanitary nickel plated plumbing. There are



SECOND AND THIRD FLOOR PLAN.

steel clad bathtubs with oak rims and porcelain wash basins with marble slabs and marble backs and sides.

The kitchens contain modern ranges, with boilers over the same; galvanized iron sinks, backs and legs, and stone wash trays, with ash covers and iron stands.

The building is piped for gas and fitted with gas fixtures. The main stairs are of oak, finished natural. There is also an iron skeleton stairway to the roof from the bulkhead.

The store ceiling is of metal of a neat pattern, with a large cornice, and the side walls are plastered and wainscoted over the plaster five feet high.

This building is designed in accordance with the requirements of the building laws in New York state, but can be easily remodeled to suit other locations. Cost, $5,000.

English Gardens.

There is no parallel in England to the partial decay and ruin of the great Italian and French gardens, for Versailles has not been kept up as it should be under the republic. Englishmen either maintain or improve or they destroy, says the Architectural Record. It is true that their improvements are often more destructive than the negligence of Italians, but it is at least the evidence of a fresh and living interest.

How to Prune Blackcaps.

The figure represents Kansas blackcap raspberries as they grow on the grounds of the Rural New Yorker with ordinary cultivation. The bush on the right is pruned for fruiting—that is, the old canes have been cut out, together with the weak new growths and the branches shortened back to moderate spurs, cutting to a plump bud. The unpruned bush shows how the tips anchor when growth is not hampered

UNPRUNED—PRUNED FOR FRUITING.

by summer pinching. On account of frequent high winds during summer and early fall it is found inexpedient to cut out old canes when the fruit ripens or interfere with the natural development of the new growth until pruning time returns the following spring. The plants, unless trained to wires or stakes, need all possible support against wind pressure and know well how to provide it. In less exposed places summer pruning may be an advantage, but it is doubtful whether productiveness is greatly increased by it.

THE COMMERCIAL ADVERTISER

By the Commercial Advertiser Association, Monday Evening, June 15, 1903—Mrs. Mary Baker G. Eddy Explains.

CONCORD, N. H., June 13.—Mrs. Baker G. Eddy makes the following statement regarding a recent discussion in the public press: "My recent reply to the reprint of a scandal in the Literary Digest was not a question of "Who shall be greatest?" but "Who shall be just?" Who is or is not the founder of Christian Science was not the trend of thought, but to lift the curtain on wrong, on falsehood, persistently misrepresenting my character education and authority, and attending to narrow my life into a conflict for fame.

"Far be it from me to tread on the ashes of the dead, or to disever any unity that may exist between Christian Science and the philosophy of a great and good man, for such was Ralph Waldo Emerson, and I deem it unwise to enter into a newspaper controversy over a question that is no longer a question. The false should be antagonized only for the purpose of making the true transparent. I have quite another purpose in life than to be thought great; time and goodness determine greatness.

The greatest reform, without almost unutterable truths to translate, must wait to be transfused into the practical and to be understood in the "new tongue." Age, with experience, acquired patience and unselfish love, waits on God. Human merit and demerit will find the proper level. Divinity alone solves the problem of humanity, and in God's own time, "By their fruits ye shall know them."

Worst of All Experiences.

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. B. Newsom, of Decatur, Ala. "For three years," she writes, "I endured insufferable pain from Indigestion, Stomach and Bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters, and the result was miraculous. I improved at once, and now I am completely recovered." For Liver, Kidney, Stomach and Bowel troubles Electric Bitters is the only medicine. Only 50 cents. It is guaranteed by R. R. BELLAMY, druggist. †

The Morning Star.

WILMINGTON, N. C.

SUNDAY MORNING. JUNE 21.

U. S. CRUISER GALVESTON.

Arrangements Made by Attorney General Knox to Secure the Release of the Vessel to the Government.

By Telegraph to the Morning Star.

WASHINGTON, June 20.—Attorney General Knox had prepared to day a stipulation in the nature of a bond which will be filed with Judge Grinnan, of the chancery court of Richmond, practically covering the government's interest in the Galveston. This stipulation, or bond, it is assumed will more than cover the claims of the creditors against the Trigg company for work done and material used on the ship. After the stipulation is filed it is believed that Judge Grinnan will immediately release the ship to the government.

It was learned at the Navy Department to-day that far greater interests are involved in the decision of the question of the possessors of the cruisers Galveston and Chattanooga than are represented by the actual cash value of those boats. It is regarded as absolutely essential at this stage to establish a sound precedent and determine the question of title to war vessels under construction in order to protect the government's interest in the ownership of at least a dozen ships, including battleships worth nearly five million dollars each. Similar action will be taken in the case of the Chattanooga, building at Elizabethport, and it is therefore probable that no further delays will be encountered in the completion of the Galveston and the Chattanooga, while any show of force or duress on the part of the national government would be avoided. It is fully expected that similar action to that about to be taken in the case of these two cruisers will be necessary in the case of some much larger warships now on the stocks.

Further Complications.

RICHMOND, VA., June 20.—In the matter of creditors asking that the William R. Trigg Shipbuilding Company be adjudged a bankrupt, Judge Waddill rendered a decision to-day that the appointment of a receiver by the chancery court of the city of Richmond, December 22, 1903, which was the act of bankruptcy complained of in the petition, could not be taken advantage of under the amendment of February 3rd, 1903.

Judge Waddill holds that the amendment of February 5th, 1903, is not retroactive and could not extend to the appointment of a receiver prior to February 5, 1903, as was the case in the appointment of a receiver for the Trigg company. It is thought probable that this decision may further complicate the situation in respect of the cruiser Galveston.

POSTOFFICE DEPARTMENT.

Money Order Bureau and the Dead Letter Office to be Investigated—Full Report to be Made Public.

By Telegraph to the Morning Star.

WASHINGTON, June 20.—An investigation will be made of the money order bureau and the dead letter office. Both of these bureaus handle considerable money and the investigation is a measure of precaution. There are no specific charges.

Counsel for the two competing bidders for the contract for printing the money order forms, the bids which led to Superintendent Metcalf's dismissal, have been asked to submit their briefs to the department as soon as possible in order to enable early action on the contract. Postmaster General Payne said to-day that he had made no final decision on Mr. Metcalf's appeal for the reopening of his case.

When the pending investigation of the affairs of the Postoffice Department shall have been completed, a full report of it will be made to President Roosevelt by the postmaster general. It is understood the present intention of the President is to make the report public, accompanying it with a statement of his own reviewing the proceedings and making such comments upon it as he may deem advisable.

PERCY JONES MURDER TRIAL.

State Asks for Conviction of Only One Man for Murder in First Degree.

By Telegraph to the Morning Star.

RALEIGH, N. C., June 20.—A special from Wilson, N. C., says the work of securing a jury for the trial of the men charged with the murder of Percy Jones, the insurance agent, took up the most of the time of the court yesterday, the panel being complete at 7:30 last night. At the morning session Solicitor C. C. Daniels stated that the State would ask for the conviction of Gil D. Ward only, on the charge of murder in the first degree, while Whitley, Rich, Allen and Morgan would be tried for murder in the second degree. On this defendants' counsel moved for a continuance, but Judge Shaw denied the motion and ordered that the case should proceed.

RELATIONS WITH SERVIAN DYNASTY.

United States Government Has Adopted an Attitude Similar to that of Great Britain.

WILL WITHHOLD RECOGNITION

King Peter Will Probably Persuade the Assassins of King Alexander to Absent Themselves Until Quiet is Again Restored at Belgrade.

By Cable to the Morning Star.

WASHINGTON, June 20.—The United States government has adopted an attitude similar to that of England towards the new Servian dynasty. It will be in no haste to recognize a government created by assassination, in the absence of some exhibition of a disposition to punish the guilty. Mr. Jackson, who, beside being minister to Greece, is also United States minister to Servia, will not present his credentials to the government of King Peter at present.

VIENNA, June 20.—King Peter will arrive here Tuesday evening. At the railroad station he will receive the homage of the Servian colony and will continue his journey by way of Budapest, arriving at Belgrade on Wednesday.

BELGRADE, June 20.—Great Britain has practically broken off diplomatic relations with Servia. The British minister, Sir G. F. Bonham, will leave here for England on Monday. The consul of Great Britain, S. W. G. Thesinger, will take charge of British interest.

BELGRADE, June 20.—Unless King Peter is prepared to altogether ignore the foreign demands for the punishment of the assassins of King Alexander and Queen Draga, his only means of satisfying any requirements appears to be to persuade the criminals to absent themselves until quiet is restored, when they will be permitted to resume their places in the army. It is suggested in official quarters that Russia may possibly advise the officers concerned to so absent themselves.

Colonel Mischich, who took a prominent part in the assassinations at the palace s has been gazetted commandant of the military district of Belgrade.

BELGRADE, June 20.—Foreign Minister Kalievics to-day made a statement regarding the attitude of the British government in which he expresses deep indignation at the attempt to hold the present Servian government responsible for the royal tragedy of June 11th, and defends the revolution as sanctioned by the whole army and the whole people.

VIENNA, June 20.—Major Pomiankowski, the military attache of the Austro-Hungarian legation at Belgrade, was the last person outside of King-Alexander's household who saw him alive.

On the afternoon of the day preceding the tragedy, Major Pomiankowski had a long private audience with King Alexander, which was interrupted by the king's adjutant, Lazar Petrovics, who entered the room and made a communication to the King which seemed to agitate the latter. King Alexander told the attache that the audience must be continued at some future time. Major Pomianowski thereupon retired. On entering the room the attache found four officers standing in a group reading an anonymous letter purporting to have been written by a friend of the king, warning him that he would be killed the same night. King Alexander was much disturbed by the letter, but was reassured by M. Petrovics, who ridiculed the warning and told the king that in order to prove his disbelief in it he would, contrary to his usual habit, occupy his lodgings in the Konak that night.

THE RICHMOND CAR STRIKE.

Considerable Disorder During the Day. Cars Withdrawn at Nightfall—No Serious Rioting.

By Telegraph to the Morning Star.

RICHMOND, VA., June 20.—The street railway strike situation is not much changed to-night. Fourteen cars were on the Main street line today, double the number run yesterday, but they were withdrawn at nightfall, as were the seven yesterday. There was considerable disorder during the day at the west end car barns of the company, which are outside of the city limits. The junior counsel of the company, a prominent Richmond lawyer, was struck by one of the county policemen as the result of a dispute as to the officer's duty to arrest a strike sympathizer alleged to be inciting to riot. Other minor difficulties occurred during the day, but no serious rioting is reported. From a hundred to a hundred and fifty more strike-breakers arrived in the city to-day. The company is cautious about putting out its cars, alleging that the police protection, county and city, is inadequate. The strikers remain firm in their attitude, and are for the most part orderly in a striking degree. There is announced for to morrow a big parade of labor men to show sympathy for the strikers. No cars will be run to-morrow. The business of the city is suffering perceptibly by reason of the continuance of the strike.

SAW MILL BURNED.

Large Plant Near Geneva, Ala.—The Loss Estimated at $125,000.

By Telegraph to the Morning Star.

GENEVA, ALA., June 20.—The entire saw mill plant and four dry kilns, own and operated by the Barry Lumber Company, at Opp, thirty miles west of here, was burned last night. A million feet of lumber, several cars, and three dwellings near the plant were also destroyed. The loss is $125,000, with very little insurance.

POOL ROOM RAID.

Proprietor and Employes Arrested--Others Were Let Off.

By Telegraph to the Morning Star.

NEW YORK, June 20.—Twenty policemen surrounded and raided to-day an alleged pool room in Church street near Barclay. One hundred and fifty persons were in the place. The alleged proprietor and four employes were arrested and the remainder let off. The police confiscated a large amount of cards, racing sheets, telegraph instruments and a megaphone.

APPLICATION MADE FOR A RECEIVER.

For the U. S. Cast Iron Pipe and Foundry Company--Incorporated Three Years Ago With Capital of $30,000,000

By Telegraph to the Morning Star.

TRENTON, N. J., June 20.—Application was made in the court of chancery to-day by Andrew H. McNeal, of Burlington, N. J., for the appointment of a receiver for the United States Cast Iron Pipe and Foundry Company, which has fourteen plants at different points throughout the United States, one of which is located at Burlington Other plants are located at Buffalo, Cleveland, Columbus, O., Scottsdale, Pa., and in Wisconsin, Kentucky, Ohio and Alabama. The company was incorporated about three years ago with an authorized capital of $30,000,000, to make cast iron pipe and foundry work.

McNeal, in his bill of complaint, charges extravagances and mismanagement in the operation of the business of the company. He further charges that the company has been operated more with a regard for the exploiting of the company's stock in the stock market than for the practical utilization of the company's works; that from its organization in the Spring of 1901 the company's management was dominated by General Samuel Thomas, whose principal occupation, McNeal says, was that of a promoter of companies and exploiter of stocks. McNeal further charges that since the Spring of 1900 the company was dominated by its president, George B. Hayes, whose associates, he alleges, were financiers and exploiters of stocks. It is averred that the plant at Buffalo is operated with a loss of $400,000 and that plants at West Superior, Bridgeport, South Pittsburg and Newport were dismantled and rendered useless, and that all of these plants were acquired at excessive prices. It is also charged that for the purpose of exploiting stock statements to the public were published showing nearly $1,000,000 surplus, which McNeal claims are not true.

LIGHTNING AND DYNAMITE.

Explosion Near a Mining Town in Ohio. Six Men Killed and Many Injured. Property Damaged.

By Telegraph to the Morning Star.

CAMBRIDGE, O., June 20.—Lightning struck a hut stored with 3,000 pounds of dynamite at the new mines now being opened near Senecaville, twelve miles from here, to-day during a storm, killing six men and injuring a score of others, besides ruining the mine shaft and breaking nearly all the windows in Senecaville, a mining town of 300 people, half a mile from the mine. The men killed were carpenters and others engaged in opening the mines and building the shafting. When the storm came up the men took refuge in John Saltzgaber's barn, some distance from the mine. Suddenly a blinding flash came and, in an instant the barn was demolished and the men scattered over a radius of a hundred feet. More than a score of men were bleeding from injuries sustained from heavy rocks torn up from the earth and from the timbers from the blacksmith shop. The dead are: William Mahoney, Samuel Hartup, Russell Hartup, Robert Wilson, Hiram Wilson and Hayes Hutchison. Among the injured are Richard Davis, the two sons of Richard Passford, Burton Burton, John Green, William Nelson, James Lowery, John Shear and Charles Read.

REMARKABLE DEMONSTRATION.

At Nyborg, Denmark, in Honor of the Navy of the United States.

By Cable to the Morning Star.

COPENHAGEN, June 20.—When the United States European squadron stopped at Nyborg, Denmark, to-day, a remarkable demonstration in honor of the United States navy occurred. The occasion was the funeral of a negro boy who belonged to one of the ships of the squadron and who committed suicide by jumping overboard on the previous day. Eighty officers and men, headed by a band, were landed at Nyborg with the body, whereupon all the flags of the town were half-masted. The funeral was attended by representatives of the Danish military and civil authorities and by the foreign consuls who deposited flowers on the coffin, which was draped with the Danish and American colors.

THE AMERICAN DERBY

Won by The Picket—Seventy Thousand People Saw the Race.

By Telegraph to the Morning Star.

CHICAGO, June 20.—The Picket, a horse that never before flashed first past the pole, won the American Derby to-day. He set the pace every step of the distance, was never challenged and won in a gallop of six lengths. He ran the Derby distance, one and a half miles, faster than it was ever run before in the race; his time was 2:33. Claude, the winner of three derbies, was second; Bernays, the Cincinnati candidate, was third. The race was worth $32,375, and seventy thousand people witnessed it.

STATE TROOPS STILL ON DUTY.

Guarding the Foreman of the Grand Jury and Others at Jackson, Ky.

GREAT ANXIETY CONTINUES.

Said That a Movement is on Foot to Swear Out Warrants at Once for Arrest of Men in High Places for Bribery, Etc.

By Telegraph to the Morning Star.

JACKSON, KY., June 20.—Since the removal of Jett and White to Lexington and the prospect of another trial in another county beyond the scene of the feud influence, there is considerable talk here of prosecutions for perjury and bribery. It is said that a move is on foot to swear out warrants at once for the arrest of men in high places for bribery, perjury, and as accessory to the Marcum murder before the fact. One of these warrants is expected to be served to-night. The statement by Judge Redwine that he will call a special term of court, when he finished work in Irvine and Lee counties, is taken as a conclusive step in this connection.

The situation is still one of apprehension. The foreman of the grand jury that indicted Jett and White has been threatened and the soldiers were stationed around his house last night as well as around that of Haddix, who testified to seeing Crawford and Tharpe, teamsters for Hargis Brothers, coming from the Ewen hotel just before the fire was discovered. Anxiety is felt for other witnesses and jurors and the provost marshal will continue holding Jackson under martial law.

LEXINGTON, KY., June 20.—Notwithstanding Judge Hargis' request that Jett and White be allowed "extras" at his expense, both men ate the jail breakfast. This was visiting day, but visitors were not allowed to see Breathitt county prisoners. Jailor Robert Wallace says he intends to be present at every meeting in the jail of any person who calls on Jett or White, and will take absolutely no chances either on poison or collusion with outsiders. He watches all the food that goes to them. Judge Hargis is still here.

Captain Ewen, the exiled witness from Jackson, stated to-day that he had been warned not to leave the house where he is staying, and that he would heed the warning. A lecture on the situation in Breathitt county which Capt. Ewen was to have delivered to-night has been called off. The danger to Ewen is said to lie in the presence of men who reached Lexington yesterday from Jackson.

Conference of Politicians.

LEXINGTON, KY., June 20.—The Breathitt county feud has been the occasion of conferences of prominent politicians and others here to-day. County Judge James Hargis, who accompanied Jett and White here yesterday, was with friends last night and to-day and to-night. Hargis is a member of the Democratic State central committee, which recently reorganized the local organization. This action was afterwards defeated by the county judge here re-districting the city. Members of the deposed local organization have been very attentive to Judge Hargis and have had different conferences. This has caused reports about alliances. While these conferences were in progress, Joseph Bruner, a detective for the Lexington and Eastern railroad, which runs to Jackson, was proceeding to arrest several visitors from Jackson "as accessory before the fact," and was prevented by B. J. Ewen, who declined to swear out the warrants. Ewen is still a prisoner in the Martin home and does not venture out of the house, day or night, as there are many in Lexington now who have arrived recently from Jackson.

There is no doubt that the request of Judge Osborne and the Harrison county officials for no troops at Cynthiana will be observed unless enough feudists from Breathitt county shall come there to make the situation threatening. The next regular term of court at Cynthiana will not be until September, but the announcement of Judge Osborne that he probably would call a special term early next month to try Jett and White is believed to have had much to do with the conferences that are being held here now.

Governor's Action.

FRANKFORT, KY., June 20.—Governor Beckham this afternoon received a telegram from Postmaster Hurst, Mrs. J. R. Marcum and other residents, asking for the continuance of the provost guard established by the militia. In response, he assured them that he would continue to do all in his power to protect the people of Breathitt county. No order recalling the troops has been issued yet. They will be held there pending the calling of another special session of court to investigate the burning of Ewen's house and the attempt to bribe him in the Jett case.

The Governor is pressing the empannelling of a special grand jury for that purpose and State Inspector Hines will return to Jackson to confer with Judge Redwine and Commonwealth's Attorney Byrd regarding it.

FOUR ROBBERS CAPTURED.

Attempted to Rob a Bank at Bellefont, Pa.—One of the Gang Shot in a Fight With Officers.

By Telegraph to the Morning Star.

BELLEFONT, PA., June 20.—The four robbers who attempted to rob the Centre Hall Bank last night were captured to-day in Seven Mountains, after one of them had been so severely wounded that he cannot recover. Two men were tracked to the mountains to-day by Sheriff Taylor and a posse of fifty men, armed with Winchester rifles. The sheriff and his deputies captured the gang in an old stable. The command to surrender was answered by a volley of bullets from the robbers' revolvers. The deputies returned the fire, after which the men surrendered. One of the gang, whose name, according to his comrades is Showalter, and whom the burglars say lives in Wisconsin, was shot through the neck. The other robbers gave their James as James Ryan, Samuel Shireman and William Connor. The men were placed in jail here. They have been identified as members of a gang that has been committing many robberies in Union and Centre counties during the past week.

RAILROADS IN ALASKA.

Contracts Awarded to a Chicago Company to Build 413 Miles With All Possible Speed.

By Telegraph to the Morning Star.

CHICAGO, June 20.—The gold output of Alaska, $40,000,000 per year, will be greatly increased by the early building of a new railroad from the southern coast at Resurrection Bay northward to the Tanana, definite announcement of which was made here to-day.

The contract has been awarded to a Chicago company for building and equipping 413 miles of the Alaska Central railway from Resurrection Bay, north through the Cook inlet country and up the Susitna to the Tanana river, 150 miles above its junction with the Yukon. The construction company is made up of Illinois, Michigan and Ohio capitalists. Construction will be started before June 15th and be pushed with all possible speed. The president is George W. Dickinson, formerly general manager of the Northern Pacific. The Southern harbor of the Alaska Central is open every day of the year. The route of the railway, which was surveyed last summer, is through a valley heavily timbered and will open a vast country rich in gold, copper and coal. Its northern terminus is in the midst of the new Tanana gold fields.

STRIKE IN DUBUQUE, IOWA.

Military Companies Guarding the Property of the Street Car Companies. No Disturbance

By Telegraph to the Morning Star.

DES MOINES, IOWA, June 20.—Governor Cummins, upon receiving advices that a crisis was approaching in the railway strike at Dubuque, issued orders to-day to mobilize additional companies of militia at that point.

Governor Cummins' action was based upon numerous messages from the mayor, sheriff and leading citizens of Dubuque, expressing grave fear that to-night would witness an outbreak on the part of the street railway strikers and their sympathizers that might culminate in setting fire to some of the leading places of business. The situation was reported as extremely critical.

DUBUQUE, IOWA, June 20.—Military companies from Independence, Waterloo and Maqueketa, arrived this evening and are now guarding the property of the street car company. Operation of cars will be resumed to-morrow. People thronged the streets to night, but there was no demonstration.

FOR VICE PRESIDENT.

U. S. Grant, Jr., Will Not Object to Running on a Ticket With Roosevelt.

By Telegraph to the Morning Star.

SAN DIEGO, CAL., June 20.—U. S. Grant, Jr., when asked whether it is to be considered that he is a candidate for the Vice Presidency on a ticket with Mr. Roosevelt, said:

"I have not announced myself as a candidate for the Vice Presidential nomination, but I have known that some of my friends have entertained the feeling that the position ought to come to this coast and that I was probably as available a candidate for it as any other citizen of the section. Mr. Roosevelt cannot carry the great West without the assistance of a Western name and I think he will favor some Western man."

AN OUTLAW KILLED.

James McKinney, the Last of the Montana Jail Breakers.

By Telegraph to the Morning Star.

GLASGOW, MONT., June 20.—News has reached this city that James McKinney, the last of the Glasgow fugitives, was shot to death after he had made an ineffectual attempt to kill Miss Darnell who had discovered the outlaw hiding in her father's ice house. Noticing that things were not exactly right at the ice house, Miss Darnell called for her father. McKinney saw them coming and attempted to use his rifle. The mechanism of the gun stuck and before he could get it in working order Darnell grabbed another rifle and shot the outlaw, who died three hours later. McKinney is the third one of the four prisoners who participated in a general break from the Glasgow jail on June 6th to meet violent deaths, and their escape has cost five lives—Jack Williams and Charles Hill, officers—and William Hardee, James McKinney and Jack Brown, the latter being lynched in this city on Thursday night.

A Plain Dry Goods Talk.

It is easy to understand why we can sell Dry Goods cheaper than most people. The reason why, is this, we have so many different departments and each department is a store within itself.

Our Dry Goods and Dress Goods Department is 25 feet wide and 125 feet long. Our Clothing, Shoe and Men's Hat Department is also on our first floor and is 25 by 125 feet in size.

Our Millinery and Ladies' ready-to-wear goods of every description. Laces, Embroideries, is on our second floor, 50 feet wide and 125 feet long.

Our wholesale stock, with Carpets, Mattings, Trunks and Valises, Glassware, Tinware and Crockery, including a big stock of Dry Goods, Shoes and Men's Hats is on our second floor—all connected by an electric elevator as well as by stairway. In carrying so many different lines of goods we have only one rent to pay.

The second reason is we buy our goods in large quantities in case lots and get them cheaper than retail merchants; and the third reason is we pay the cash for our goods and save the cash discounts and give that discount to our customers in the way of presents. The factories give us a discount on our bills for the money and we feel that you are entitled to a discount on your money.

We have received this week a nice line of Chairs and Oak Centre Tables and Crockery to give away as presents.

In our Dry Goods Department we have just received some beautiful Percales, 36 inches wide; 10c values we are selling them at 7c. We also have a nice line of remnants in Percale, 36 inches wide, we are selling at 6c per yard. A line of large cord Pique we are selling at 8 and 10c per yard—worth 15c yard. A beautiful line of white Mercerized goods in 5 to 15 yard pieces, cheap at 25c; our price is 15c yard. A splendid white Pique, perfect goods in short pieces, 20c values for 12½c.

In Calico and Gingham remnants we have them by the pound in 5 lb bundles, about 50 yards cloth for $1.00 a bundle. In pretty Summer goods we have some nice patterns really worth 8 and 10c a yard. We are running them at 5c per yard. One piece basket weave Madras, newest weave on the market worth 35c, our price is 20c per yard.

For our customers who want black Dress Goods we have just received 1724 yards black woollen goods 36, 38, 40 and 42 inches wide—goods that are worth 25 to 36c per yard; our price is 20c your choice.

Our Men's and Boys' Clothing in all styles of summer weight goods. Coats and Pants—odd Coats and odd Pants in alpaca, wool serges, wash coats and wash suits are in big demand, and we would be glad to have you look at our line. A full line of wash suits for boys from 50c a suit to $1.50. Also a big line of boy's suits, $1.50 to $3.50 a suit.

Our Millinery Department is on the second floor. We have by far the largest display in this line of any store in the State. We are receiving new hats almost every day, and we have just closed out a big line of Tuscan flats and shapes that we have been selling at $1.25 that we can sell this week at 75c each. In white Chip hats, the newest and latest shapes, we are running at 48c; these sold at 75c first of the season. $1.25 and $1.50 values in white and black Chippon hats this week at 98c each. Our Silk and Horse hair Braid hats, with tuck crowns, for $1.50 this week.

Ribbons are in great demand. On our ribbon counters we have anything you can call for—all colors, all widths and all prices. We undersell any competition in the market.

We handle a big line of Ready-to-wear Skirts, Underskirts and Overskirts.

Our Lace counters have been newly supplied in Val Torchon and Linen, Allovers and Appliques.

We feel sure we can save you money. Our stock never runs down. Come to see us, and bring your card, get it punched and get a present.
